

**The Benefits
of Partnering
With Us**

Exposure: Your company will be listed on our Rental House Partners page.

Simplicity: Your clients can purchase coverage with us 24/7, 365. They will simply select your company in the drop down menu and a COI will be delivered electronically. Your team can verify the COI online any time.

Affordability: Your clients' budget will benefit from our partnership, too. Each new rental house receives a unique discount code that can be used at checkout for a discount.

Customizable: Whether you require rented property coverage only, or liability as well; whether you require coverage for theft from an unlocked vehicle, or loss of use coverage; we will work with you to ensure your gear is covered while out for rent. Your clients can easily lengthen their policy term, increase their limit, or add additional coverage online at InsureMyEquipment.com.

Safe: Our coverage is comprehensive and robust. You can rest assured; coverage includes accidental damage, theft, loss, fire, rain, wind, hail, etc. Coverage applies worldwide whether the equipment is in use, storage or transit.
